Screen reading software:

NVDA has been translated by volunteers into more than 55 languages, and been used by people in more than 175 countries. It has also won multiple awards.

NVDA is open-source software, which means the code is accessible to anyone. This enables translators and developers around the world to continually contribute to its expansion and improvement. The NVDA screen reader can be downloaded free of charge by anyone. We do this because we believe everyone, especially the world's poorest blind people deserve access to computers and a way out of poverty. If you have the means, no matter how big or small, please consider making a donation before downloading NVDA. Developer rely on donations and grants to continue improving NVDA and to ensure it remains compatible with the world's rapidly changing technology.
